Description

The Solaris 50 is a standout Italian performance cruiser that blends serious offshore capability with refined luxury and effortless handling. Designed by Javier Soto Acebal and built to an exceptionally high standard, she delivers pace, balance, and comfort in equal measure.

This is a well-specified example featuring a carbon Hall Spars rig, rod rigging, and a North Sails 3Di sail wardrobe, giving her real performance pedigree under sail. A carbon bowsprit, self-tacking jib system, and quality Harken winch package make her easy to handle short-handed, whether coastal cruising or pushing offshore.

Below deck, the Solaris signature full-beam saloon creates an impressive sense of space, with natural light and panoramic visibility throughout. The layout offers three cabins and two bathrooms, including a forward owner's suite and two comfortable guest cabins aft, all finished with the quality and attention to detail Solaris is known for.

Built using advanced vacuum-infused construction, she is stiff, light, and responsive on the water. A Volvo Penta 75hp engine, bow thruster, air conditioning, and heating ensure she is just as capable under power and at anchor as she is under sail.

Highlights:

- Hall Spars carbon fibre mast and boom
- Rod rigging with fractional performance rig
- North Sails 3Di sail wardrobe (Endurance & Ocean)
- Code Zero and asymmetric spinnaker
- Carbon bowsprit for downwind sailing
- Harken electric and 3-speed racing winches
- Harken Switch Track mainsail system
- Self-tacking jib system
- Volvo Penta 75hp engine
- Bow thruster
- Full-beam saloon with exceptional light and space
- Three-cabin, two-head accommodation
- Forward owner's suite plus aft guest cabins
- Air conditioning and heating
- Vacuum-infused composite hull construction

Sleek, fast, and beautifully built, this Solaris 50 is a rare opportunity to secure one of the most respected performance cruisers in her class.
