## Description

The Grand Soleil Yachts Long Cruise range has a new arrival: the Grand Soleil 60 Long Cruise, an exquisite blend of efficiency, timeless style, and constant innovation. With a deck design, interior design and G.A. by Nauta Design and naval architecture by Matteo Polli, this new model exemplifies the brand's commitment to bluewater sailing.

Ideal for long-distance cruises, the Grand Soleil 60 Long Cruise establishes new benchmarks in navigation, boasting enhanced comfort and seamless sailing.

The Grand Soleil 60 Long Cruise is tailored to deliver classic Long Cruise features, prioritising exceptional comfort and easy sailing while maintaining optimal performance.

Designed for maximum volume both above and below deck, the "step-free" deck layout facilitates effortless movement around the yacht, whether underway or at anchor. This thoughtful design adjustment complements the strategic placement of all main winches and controls within easy reach of the helm, facilitating short-handed sailing. The Grand Soleil 60 Long Cruise is equipped with a fully battened furling mainsail, and hydraulic controls for both the backstay and vang add to the sailing efficiency.

The choice between versions with or without a rollbar offers customisation to suit individual preferences. This version is designed for owners who prefer a more sporty character and features an enlarged sail plan, dedicated equipment, and a fixed mainsheet point in the cockpit between the wheels.

The interior space has been designed to offer an unparalleled sailing experience, where refined design and functionality blend in perfect harmony.

The Long Cruise range has a Blue Water soul. The line is designed for those who look for functionality, autonomy in navigation and simplicity of maneuvering on board. This enables to manage the boat even with a small crew, without sacrificing comfort and larger volumes for long cruises.
