## Description

The Performance version of the Grand Soleil 65 is designed to ensure fast and agile sailing without sacrificing a high degree of comfort. These features can be seen in the sleek, streamlined design of the deckhouse, a hallmark of the Performance version's sporty soul.

Grand Soleil 65 Performance's technical design by Matteo Polli aims at hitting the same targets as its predecessor Grand Soleil 72, but presented in a smaller size scale. The Grand Soleil 65 Performance boasts exceptional design and engineering. With a streamlined deckhouse and sporty design, the boat provides great stability and dynamism as well as speed and agility. Safety is a priority, hence the cutting-edge navigation and communication systems and a comprehensive safety package. The Grand Soleil 65 Performance is perfect for experienced or novice sailors and will make the navigation experience unique.

The spacious and luxurious interior provides ample storage space, the salon is bright and welcoming, and the owner's cabin is comfortable. The open galley, overlooking the salon, creates a spacious and inviting living area. The Performance version, characterised by its streamlined deckhouse and sportier design, features an aft galley to optimize the space of the dining and lounging areas .

Cantiere del Pardo, in collaboration with Nauta Design, conceived and designed the deck and interior layouts with the purpose of making best use of all available space. As a matter of fact, dimensions, ergonomics, stowage, functions and quality of accessories are in line with superyacht standards.

With meticulous attention to detail, the Grand Soleil 65 Performance seamlessly combines its performance-oriented design with a focus on comfort and relaxation. The guest cabins are thoughtfully separated from the crew cabin, ensuring privacy and a peaceful atmosphere
