Description

The ITA 14.99 is a true expression of Italian craftsmanship, minimalist, refined, and remarkably capable. Winner of Multihull of the Year by Voile Magazine (2020) and previously nominated in 2018, this performance cruising catamaran strikes the perfect balance between elegance and offshore practicality.

Designed for serious blue water sailing, the 14.99 can be handled short- or even single-handed, making it an ideal fit for experienced cruisers seeking both control and comfort. The brief was clear: no gimmicks - just clean lines, technical sophistication, and real sailing ability.

Built using epoxy resin infusion with carbon reinforcements, the hull is lightweight and strong. With retractable daggerboards for upwind performance and shoal draft access, the 14.99 is equally at home crossing oceans or tucked into a shallow tropical anchorage.

Whether you're coastal cruising in Australia, island hopping in the Pacific, or planning a long-distance voyage, the ITA 14.99 offers an exhilarating blend of performance and luxury.

Key Features

- Carbon-reinforced epoxy construction for strength and weight savings
- Daggerboards with draft range from 0.57m to 2.35m
- Sail plan includes 91 m² mainsail + 49 m² self-tacking jib
- All lines led to helm, ideal for short-handed or solo sailing
- Customisable interior layouts with refined Italian finishes
- Twin helm stations with great visibility and ergonomic design
- Ocean-ready systems: CE A, optional solar, watermaker & electric propulsion
- Designed by Yacht Design Collective – Perus & Scolari

The ITA 14.99 redefines what a performance catamaran should be - sophisticated, seaworthy, and effortlessly stylish.
