Description

Looking for the ultimate fishing weapon, with enough room to take the family away?

Look no further!!

These Japanese Fishing boats are absolute beasts, the clever reverse Stern allows reversing at speed whilst keeping your crew dry when you have one on the go, and it also features a huge amount of under tankage.

When driving at speed, (23 Knots) the huge fairing bow cleaning pushes away waves and spray and enables this boat to take on all the ocean can throw at it whilst maintaining comfortable and well balanced cruising.

Although set up for fishing with Electric Reel stations, carbon Game Poles, ample live bait boxes and Sub Deck Tuna Tubs the current owner has been using the vessel for family trips and weekly trips away. It comes loaded with extras including:

- Electric 2T Davit on Bow
- Bow Thruster
- Hydraulic Steering
- A/C throughout
- Extended Awning over the aft deck
- 3.4m Tender with 20hp Yamaha
- Professional Auto Pilot
- Honda Denshi Fish Finder
- Kohler 13.5 Genset
- Electric BBQ
- 1200L Water Capacity

This Powerful vessel is incredible to drive, powered by 770hp of Yanmar Grunt with 3 inch Shafts, a Fuel Capacity of 2000L also ensures excellent range, with a fuel burn of 30l/h at 9 Knots.

If you are looking for a great liveaboard vessel, or something different to take out for the next fishing comp, then 'Kainani' is certainly worth considering.

Located on Sydney Harbour she is easy to view, and an absolute pleasure to sea trial. For further information or to organise a viewing, please contact SMB today.
